Database Technologies: SQL, MySQL Workbench
Front end Technologies: HTML&CSS, JavaScript,
Tools: Eclipse
Network& Cryptography, Security Tools: Wire-shark, Nmap& Metasploit,

Education

ANURAG UNIVERSITY, B TECH (Cyber Security)	SEP2022-MAY2025. Hyderabad, India
ANURAG ENGINEERING COLLEGE, Diploma (Mech)	JUNE2019-MAY2022. Kodada, India
SRI CHAITANYA TECHNO HIGH SCHOOL, SSC	JUNE2018-MAY2019. Kodada, India

Project

SSK Motors Vehicle Showroom Website

Technologies Used: HTML, CSS, JavaScript, Firebase

Developed a web-based vehicle showroom for SSK Motors to website enables users to browse vehicles in *website and customer ordering*. Designed an interactive and responsive interface to enhance customer experience and simplify showroom operations, and Storing order details using Firebase for seamless ordering.

Student Database Management System

Technologies Used: Java, JDBC, MySQL, Servlet, JSP

Developed a desktop-based application to efficiently manage student information and academic records. Implemented core functionalities including add, update, delete, and view operations for maintaining student data. Designed a user-friendly graphical interface that simplifies data entry, searching, and navigation. Integrated database connectivity to ensure real-time access to student records. The system enhances administrative efficiency by automating routine data management tasks and minimizing manual errors.

Cyber Bullying Detection on Social Networks

Technologies Used: HTML, CSS, JavaScript, Python, Django, SQLite, NLP, Machine Learning

Developed a web-based system aimed at detecting and preventing cyberbullying on social media platforms. The system automatically analyzes user-generated content to identify abusive or offensive. When cyberbullying is detected, the system notifies the admin, who can take appropriate actions such as deactivating or blocking the user's account with their access permission. The platform ensures a safer digital environment by continuously monitoring user activity and promoting responsible online communication.

Training

Java Full Stack Development Training

Codegnan, 2025

Technologies: java Full Stack

Certification

Infosys springboard: java SE 8 Features, Cyber Security Essentials.

CISCO: Networking CCNAv7

Infosys springboard: Practical HTML&CSS
